Introduction

WHAT IS ARBYVEST TECHNOLOGY – ARBYVEST.COM?

ARBYVEST Foreign Currency Trading is the foremost private currency trading platform in South Africa.

Our uniqueness as a platform allows members to buy USD, and GBP at our South Africa e-wallet platform rates and sell at the local black-market rates either in South Africa Rand or in Nigerian Naira on our platform.

ARBYVEST Foreign Currency Trading business is a business that involves buying a foreign currency that you will eventually sell for profit, with ARBYVEST Foreign Currency Trading, you can do this by buying USD or GBP at standard market rates and selling it at black market rates, all on the ARBYVEST Foreign Currency Trading market place platform, in Nigerian Naira or South Africa Rand.

ARBYVEST as an ARBITRAGE BUSINESS

We can now explain what Arbitrage is, as a kind of business to leverage with.

ARBITRAGE is the direct purchase and sale of the same currency amount in different currency markets by a person.

This is to ensure that the user profits from market differences in the currency's market price. Arbitrage means **taking advantage of price differences across markets to make a buck**. If a currency, commodity, or security—or even a rare pair of sneakers—is priced differently in two separate markets, traders buy the cheaper version and then sell it at the higher price to make money.

This means that an arbitrage business trader enjoys compounded profits from different markets' currencies, prices and as well as profits by purchasing and selling identical currency in different markets at different market prices.

Let us take for instance, CURRENCY MARKET 1 and CURRENCY MARKET 2 sell at \$1 at ₦540 and ₦600 respectively.

Let's assume, you, let's call you James, an arbitrage business trader would take advantage of this little difference in the price of \$1, in CURRENCY MARKET 1 and 2, and purchase from CURRENCY MARKET 1 at the rate of ₦540 per dollar and sell at CURRENCY MARKET 2 at the rate of ₦600 per dollar.

Therefore, this trader gains ₦60 on each dollar he buys at CURRENCY MARKET 1 and sells at CURRENCY MARKET 2.

Let's assume that James purchases \$2,000 in CURRENCY MARKET 1 at ₦1,080,000 (i.e., \$2000 x 540) and sold it all in CURRENCY MARKET 2 at ₦1,200,00 (i.e., \$2000 x ₦600) then he gained ₦120,000.

This shows that the little price difference between CURRENCY MARKET 1 and 2 can be leveraged and compounded into bigger profit by just carrying out a simple operation which is termed, defined, and called an arbitrage business.

Do you understand now?

Now let's move on...

Now that we understand the simple definition of what ARBITRAGE Business is.

Let's proceed to understand how it works and how you can leverage, and profit from it.

How It WORKS

HOW DOES ARBYVEST BUSINESS WORK?

There are 2 basic ways to operate and achieve success with ARBITRAGE BUSINESS

1. The very first, difficult way is by looking for CURRENCY MARKETS on google that you can take advantage of their price for you to purchase their CURRENCY and then sell it with your BANK Account. This tedious and rigorous process can define a profit margin that is lower than your expectation.
2. **The very best and recommended way** is by taking advantage of this pound dollar & pounds trading platform and using their platform to trade your arbitrage business. **The name of this platform is called ARBYVEST.COM**

ARBYVEST.COM - ARBYVEST TECHNOLOGY (Arbitrage Business Platform) will do all the field, rigorous, and hard work for you in sourcing the currency and selling it with South African Black Market racketeers.

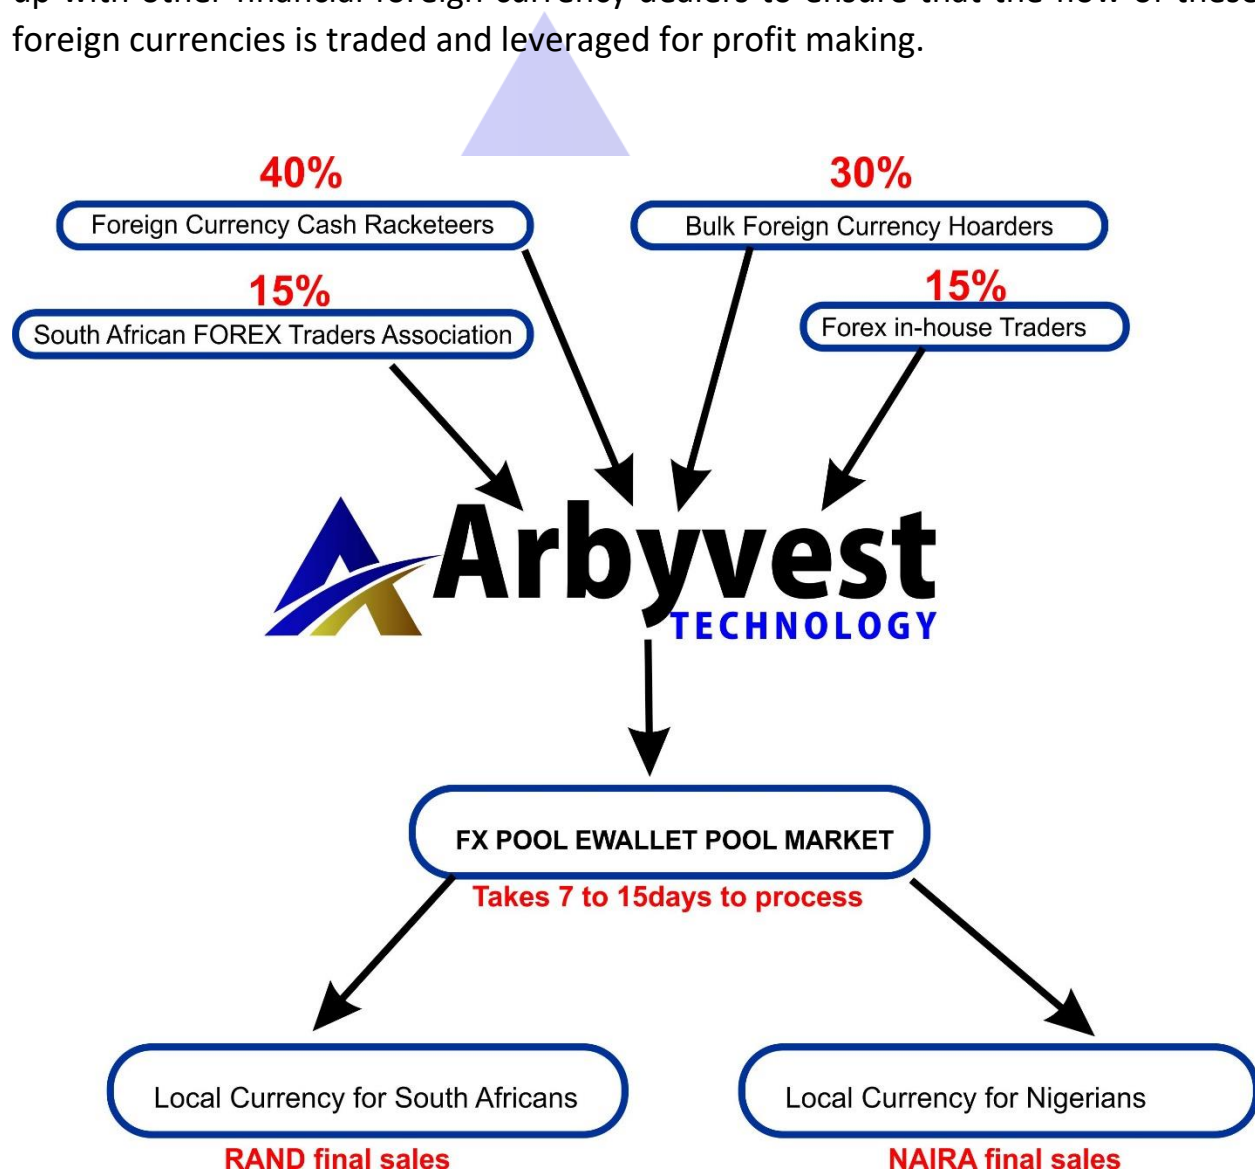

How Does ARBYVEST source for foreign currencies such as Dollars and Pounds at a cheaper rate?

ARBYVEST.COM - ARBYVEST TECHNOLOGY - with our sourcing office in the South African major financial district at Sandton, Johannesburg. We have major racketeers who are experts, and major dealers in getting Dollars, Pounds, Euros, and other currencies at the best rate, at an official price that can be traded in other local countries' currencies.

ARBYVEST experts get the foreign currency

to be traded and sell it for Medical purposes for customers who want to use these funds abroad, for financing their education purposes abroad, purchase items from abroad using our sourced best-rate currency, or whatever purposes customers need them for.

Due to the current economic market prices, ARBYVEST has come together to team up with other financial foreign currency dealers to ensure that the flow of these foreign currencies is traded and leveraged for profit making.

ARYVEST sources for South Africa e-wallet Racketeers for Foreign Currencies at an official rate from the following:

1. Foreign Currency Cash Racketeers – 40%
2. Bulk Foreign Currency Hoarders – 30%
3. South African Forex Traders Association – 15%
4. Forex In-house Traders – 15%

IS TRADING AND MAKING CURRENCY PROFITS WITH ARBITRAGE BUSINESS LEGAL?

In simple terms. YES. Completely Legal and legitimate.

Arbitrage business is 100% legal and to buttress our explanation with this regard, ARBITRAGE BUSINESS is encouraged in many developed countries such as the United States of America and other countries. This is because the arbitrage business contributes to market movements and interprets the currency flow of the markets. Traders always take advantage of the differences all the time.

Let's go straight to profiting from ARBITRAGE BUSINESS with ARBYVEST...

Are you ready?

Ok, let's dive in...

Getting Started with ARBYVEST...

Now that we've got a glimpse of what ARBYVEST – Arbyvest Technology – arbyvest.com is all about.

Let us get started on how you can get to begin your very first trade with ARBYVEST.

www.arbyvest.com

Getting started with ARBYVEST. You need to understand that **ARBYVEST** allows her registered and verified users to buy USD or GBP at the official rate using the above-explained sourcing methods. Members that wish to register with **ARBYVEST** need to get registered and verify their account with **ARBYVEST** first.

Members can purchase the currencies such as USD and GBP at official rates from only approved **ARBYVEST CURRENCY AGENTS** and sell at the black-market rate (usually a higher rate). All these transactions (i.e., buying at a low rate and selling

at a high rate in different markets) will be done on the ARBYVEST secured trading platform as earlier explained.

TAKE NOTES OF THE FOLLOWING:

- *ARBYVEST will help you professionally and securely handle the trouble of finding where to buy and sell your foreign and your local currencies.*
- *ARBYVEST verified members can purchase DOLLAR & POUNDS on the platform instantly at official rates using the sourcing avenue as explained above.*
- *ARBYVEST will handle the arbitrage process within 7 to 15 days, and users will get the black-market value after a successful sale to their RAND or NAIRA Wallet which is automatically sent to their BANK Accounts.*
- *Verified ARBYVEST CURRENCY AGENTS get the dollar, and pounds at a cheaper rate directly from ARBYVEST TECHNOLOGY.*
- *ARBYVEST CURRENCY AGENTS make a stunning **8% profit** margin from every DOLLAR or POUND resold to their prospects and to the public.*
- *ARBYVEST Referral Earnings for members who refer members to the ARBYVEST platforms make **5% on first-time funding** via CURRENCY AGENTS or an Online Payment gateway instantly.*
- *ARBYVEST withdrawal payout is automatic as there is no third-party processing platform to delay payouts. Which means PAYOUTS are instant.*
- *ARBYVEST currency trading platform allows verified members to sell to arbitrage rates. Members will then resell it at black-market rates, which are surely higher than the official rate.*

Please be informed that after a very successful currency trading the user gets a reasonable profit from it. This profit is automatically processed and sent to the user's local bank account in South African Rand or Nigerian Naira using the bank details on the user's verified account on their profile.

PAYOUTS ON ARBYVEST

ARBYVEST.COM is regulated by the Financial Sector Conduct Authority - License No. 99811, South Africa and as a Registered Company In Nigeria.

BLACK MARKET SALES RAND/ NAIRA

WITHDRAWALS are only open every **Wednesday (7 AM TO 9 AM)** with **a 10% operation and service maintenance fee.**

In addition,

REFERRAL EARNINGS RAND/ NAIRA WITHDRAWALS are usually open, every SUNDAYS (7 AM to 9 AM) with **a 3% operation and service maintenance fee.**

All WITHDRAWALS are automatically processed to the user's Bank on their profile within a few hours.

ARBYVEST as a Business – The Guide and Illustration

Let's understand the process by which you as a user can make sales and profit with ARBYVEST. To further understand how ARBYVEST work, let us consider the below illustration.

Jacob, a registered ARBYVEST user, wants to obtain \$500 from the ARBYVEST platform at the official rate (usually a lower rate) from ARBYVEST so that he can sell at the black-market (LOCAL RATE) (usually a higher rate) and make a profit thereafter which is the sole aim.

To achieve this — he (Jacob) needs to **verify his account** by uploading any of the required identification on the ARBYVEST Platform with his official and valid document.

After successful **verification**, he may contact a verified **ARBYVEST CURRENCY AGENT.**

Chat/ CALL/ SMS any of the APPROVED CURRENCY AGENTS on ARBYVEST.

FOREIGN CURRENCY AGENTS

Contact any of our trusted, vetted and verified Foreign Currency AGENTS below this page To Get Funded in US DOLLARS or BRITISH POUNDS to your Wallet

HOW TO GET YOUR FOREIGN ACCOUNT FUNDED OUR AGENTS

- 
1. Make sure the AGENT you want to transact with or pay for your foreign currency funding is LISTED on this [FOREIGN APPROVED AGENTS page](#).
 2. Get the **NAME of the AGENT** and **ACCOUNT ID** and [VERIFY](#) if the AGENT has up to the AMOUNT in US Dollars or British Pounds in their account. For example, ACCOUNT ID: 1412E9E26U should be entered and verified on <https://arbyvest.com/verify-trader> if they have the amount you need for FUNDING.
 3. Once you can **confirm the AGENT** has the amount of the foreign currency, you may proceed to pay the amount equivalent in NAIRA or RAND to the AGENT's BANK Account provided and get your Foreign Currency in US dollars or British Pounds Funded.
 4. Otherwise, if the **AGENT** doesn't have up to the **AMOUNT** for funding, discuss with the **AGENT** to get the amount available and if they cannot get it available, do not proceed with the transaction. *You may contact another AGENT.*
 5. Make sure the **AGENT'S NAME, PHONE NUMBER, and WHATSAPP** matches with the NAMES you verified. Make sure the AGENT have the available balance in their US Dollars or British Pounds wallet.
 6. **Make payments to the AGENT and send your ACCOUNT ID immediately to the CURRENCY AGENT to send USD or GBP Funds into it.**
- 

**Contact any of our trusted, vetted and verified Foreign Currency AGENTS below To Get Funded in US DOLLARS or BRITISH POUNDS to your Wallet.
Pay AGENTS in NAIRA or RAND at the OFFICIAL MARKET RATE.**

Please note that the necessary conversion to the naira equivalent at the official arbitrage rate will be done, clearly stated and agreed upon by both parties. That is, if the current arbitrage rate at ARBYVEST is ₦495 per dollar, then JACOB will pay the CURRENCY AGENT ₦247,500 (i.e. ₦495 x 500) after the CURRENCY AGENT has funded he's ARBYVEST Account via Transfer from the dashboard.

The CURRENCY AGENT will request Jacob's Account ID and fund his USD or GBP account on ARBYVEST after confirming payments from JACOB to his RAND or NAIRA Bank account.

After JACOB has confirmed that the CURRENCY AGENT had indeed funded his USD account.

He can then proceed to sell it back to the **ARBYVEST Black Market Window**

Now That Jacob's USD or GBP Account has been funded ...

FUNDED USD or GBP Accounts can be managed for profit-making in two ways.

1. First, and the recommended way is to sell the fund in his USD or GBP balance at the black-market WINDOW rate (a higher rate than the official purchase rate he bought the USD or GBP) to get the naira equivalent with profit, in he's NGN account which he can then withdraw to the bank account on his profile.

Withdrawal to a bank account attracts a little transaction fee of 10% every Wednesday from 7 am to 9 am.

In addition, Referral Earnings NGN Withdrawal can only be done on Sundays from 7 am to 9 am to the user's BANK ACCOUNT.

Also, withdrawal can only be done on these days (i.e. Wednesday).

Assuming the black-market rate is ₦643 per dollar, then Jacob will sell his \$500 for ₦321,500 (₦643 x 500). Hence, he makes ₦74,000 (₦321,500 (sold price) – ₦247,500 (purchased price)) profit on this ARBYVEST black-market transaction.

He may repeat this process over and over to make more profit. Note that it may take up to 1 to 2 hours, after withdrawal, before the bank account will be credited.

Also, users can process as many transactions on the BLACK WINDOW as possible.

Please be informed as a USER, you need to VERIFY a CURRENCY AGENT if they have up to the desired amount before you may wish to get funded of your currency before going ahead to pay such a CURRENCY AGENT.

For instance, you need to **copy your CURRENCY AGENT Account ID** and **verify it here** <https://arbyvest.com/verify-trader> to ensure they have the funds. **You will be able to see funds in their BALANCE.**

If you have any issues with your account, or you are not sure of the AGENT you wish to pay for funding your ARBYVEST Account, [please contact us here](#).

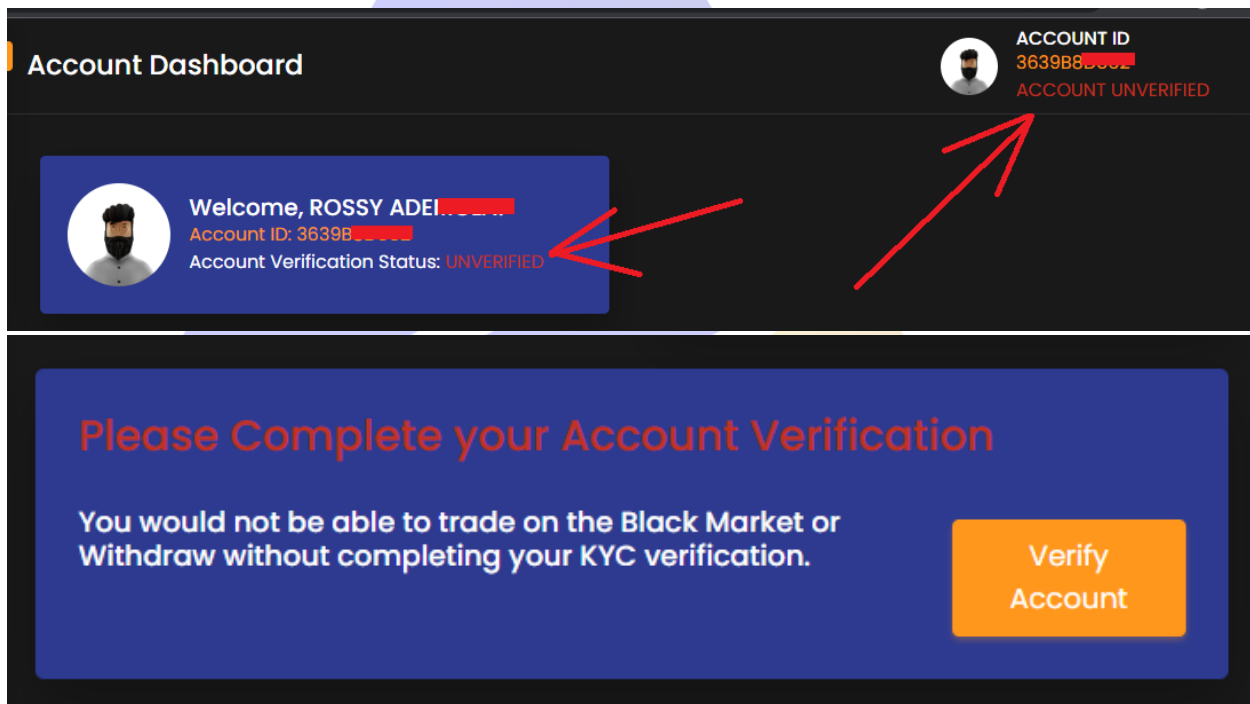

ENSURE THE FOLLOWING WHEN CHATTING WITH AN ARBYVEST CURRENCY AGENT BEFORE PAYING FOR FUNDING.

1. Copy the ACCOUNT ID of the CURRENCY AGENT and paste it here → <https://arbyvest.com/verify-trader> to verify the name of the CURRENCY AGENT matches the name of the phone number you are chatting with.
2. Ensure that the AGENT's USD or GBP Account balance has the exact amount of funding you need.
3. Verify that the phone number you are chatting with is the exact phone number listed on the verification page of the AGENT.
4. Only send funds to the BANK Account that matches the name of the CURRENCY AGENT.

5. Report by [contacting us](#) any CURRENCY AGENT that insists otherwise or you suspect their claims to be false in any way.
